DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Shudder et al. (US Patent No. 5,461,867). Shudder discloses a self heating/self cooling container for producing exothermic or endothermic reaction and comprising: a outer container and inner container, a breakable barrier (34), and inner module body (18) and a container body (10) and furthermore has a flexible membrane.

Allowable Subject Matter

Claims 4-21 are allowed over the prior art of record.

Response to Arguments

Applicant's arguments filed 12/17/2008 have been fully considered but they are not persuasive. On page 14, applicant states that the container of Schudder does not annularly surround a receptacle; Since this feature is not positively recited in claim 1; therefore rejection is maintain.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
